

BCS Accredited 5 Day Mauritius Course

The CISMP is an essentials qualification for any one who has responsibilities for "Information Security" [IS] including Compliance Officers, Risk Managers or similar.

MQA Discount 70%

Approval for the course is in the process. It entitles firms to claim a refund of up to 70% off the course fees paid.

Key Features

Gain a clear understanding of IS management issues including risk management, security standards, legislation and business continuity.

After this course candidates will be able to demonstrate:

- Knowledge of the concepts relating to information security management.
- Understanding of current national legislation and regulations which impact upon information security management.
- Awareness of current national and international standards, frameworks and organisations which facilitate the management of information security.
- Understanding of the current business and common technical environments in which information security management must operate.
- Knowledge of the categorisation, operation and effectiveness of controls of different types and characteristics.

There are no pre-requisites for attending this course. However, delegates would benefit from having a general awareness of issues involved in managing information securely.

Cost

(Including Early Bird Discounts)

The full price of the course is \$3,500.00

Book today until 20th January 2020 for a 20% discount at \$2,750.00.
